What If? and Why Not?

How to Transform Your Fears Into Action and Start the Business of Your Dreams

JEN GROOVER

Starting your own business is hard. But the biggest obstacles often have less to do with time and money, and more to do with fear and doubt.

In What If? and Why Not? serial entrepreneur and small business advocate Jen Groover—creator of the Butler Bag and creator and host of Launchers Café, an online community for entrepreneurs—shows you how to transform your fears into action by rethinking the negative questions that can lead to failure before you even get started.

Being an entrepreneur, Groover says, isn’t just about selling a product. It’s about personal growth—about taking your vision and bringing it to fruition, and about always pushing yourself to take that vision further.

Groover walks you step by step through 10 negative “What If?” questions—What if I don’t know what I’m doing? What if I don’t have the money? What if I fail?—and how to turn them around by asking yourself: What if I can learn? What if I don’t need much money? What if I succeed? She also asks “What Not?”: Why not find a mentor or take a class? Why not ask for investors? Why not try?

With dozens of personal stories from successful entrepreneurs in areas as diverse as dog-walking and handbag-invention, plus practical advice for every step of your journey, What If? and Why Not? will inspire you to launch the business of your dreams.

OF NOTE

Creator of the popular Butler Bag, author Jen Groover has:

• Signed a deal to sell handbags and accessories in 3,400 Wal-Marts, 800 K-Marts and 500+ Sam’s Clubs around the U.S. and Canada
• Signed major licensing and development deals with two accessory and retail powerhouses
• Established herself as an innovator and national brand in such areas as children’s development products, apparel, jewelry, paper products and toys
• Become the national spokeswoman for Girls Take Charge
• Created LaunchersCafe.com, an interactive online community for ambitious entrepreneurs and startup companies
• Co-produced (with KingFish Productions) a reality program titled “Launchers,” currently in production for BRAVO, TLC or E!
• Become a weekly guest on the popular program Fox News’ “The Strategy Room”
Butler Bag creator and Launchers Café host Jen Groover’s inspiring guide for budding entrepreneurs who want to move past their fears and find business success

Jen also created and hosts Launchers Café—a cutting-edge entrepreneurial, multimedia and interactive brand.

She received the Momentum Award from Ceslie Network/Ceslie.com recognizing her as one of the brightest women in business and is the 2009 Honoree for the Women’s Venture Fund for being a role model and advocate for female entrepreneurs.
Sex and War
How Biology Explains Warfare and Terrorism and Offers a Path to a Safer World
MALCOM POTTS AND THOMAS HAYDEN

Sex and War asks the basic questions: Why is war so fundamental to our species? And what can we do about it?

Scientist Malcolm Potts and journalist Thomas Hayden combine rich personal experience and research with an illuminating analysis of warfare and terrorism to show that aggression against our own species is primarily a male behavior, rooted in deep evolutionary impulses and predispositions. Battling neighboring groups of humans helped our male ancestors—the victors in early raids and wars—to survive and outcompete their rivals.

Sex and War: How Biology Explains Warfare and Terrorism and Offers a Path to a Safer World draws on a wealth of archaeological, historical and biological sources to trace the origins of warfare, terrorism, slavery, sexual repression and the subjugation of women through history.

Sex and War is the first serious attempt not only to understand the origins of war and terrorism, but also to use our emerging knowledge of human evolution to lay out a rational roadmap toward greater peace and security.

MALCOLM POTTS, MB, BChir, PhD, FRCOG, is the Fred H. Bixby Professor of Population and Family Planning at the University of California, Berkeley.

THOMAS HAYDEN is a former staff writer at Newsweek and U.S. News & World Report, and his articles and reviews have appeared in more than a dozen publications, including National Geographic, Nature and The Washington Post.
Laurell K. Hamilton’s Anita Blake, Vampire Hunter series is a literary sensation, thanks to its strong female hero, well-fleshed (both literally and literarily) characters and unabashed attitude toward sex. The world Hamilton has created is powerfully compelling and stunningly complex—and it gets deeper, richer and more perilous with every book.

Straddling the series’ dominant themes of sex and power, *Ardeur* gives Anita fans a deeper look into the dynamics, both personal and political, that have kept readers fascinated throughout the run of the series. Why is the ardeur the very best thing that could have happened to Anita, personally (aside from all the sex it requires her to have with hot men)? How is Anita’s alternate United States a logical legal extension of our own? And as the series continues, what other bargains might Anita have to make with herself and others in order to keep the people she loves safe from harm?

The collection includes essay introductions by Hamilton, giving context and extra insight into each essay’s subject.
“Baseball fans, some of whom serve in Congress, justifiably want to look out for baseball’s statistical record, to protect the heroic from the fake. Yet the tragedy derives not from the fact that the game’s venerated statistics are affected by steroids. It’s that they will never really tell us whose, or how.”

— Alan Schwarz, author of The Numbers Game: Baseball’s Lifelong Fascination with Statistics

It’s generally agreed that the level of impact steroids have had on baseball statistics—as well as who used—is impossible to estimate. But not anymore. A new analysis by baseball statistician John D. Cappello allows us to not only quantify the impact of steroids but to identify specific players whose statistics raise suspicions of steroid use.

Cappello’s analysis of more than 100 years of statistics show that, once a baseball player reaches the age of 28, it is virtually impossible for him to significantly improve his home run hitting ability. Even the best players in baseball history—players like Hank Aaron, Willie Mays and the legendary Babe Ruth—experienced only modest gains, if any. Yet in the 1990s, the best ballplayers started hitting home runs up to 200 percent faster than their younger selves... with no clear explanation as to why.

In Stealing Greatness, Cappello profiles the 22 players his analysis found to be “Career Transformers”: Barry Bonds, Mark McGwire, Rafael Palmiero and 19 others who, in mid-career, inexplicably became unrecognizably superior players.

Lyrically written with a deep knowledge of and profound appreciation for the game, Stealing Greatness demonstrates the likely extent of steroids’ impact on the record book and discusses how best to judge the accomplishments of a generation of players forever marked by the suspicion of the Steroid Era.

JOHN D. CAPPELLO

JOHN CAPPELLO received his bachelor’s and master’s degrees in computer engineering from Drexel University in Philadelphia. As president of Optimal Design, Inc., he has provided hardware design services to the broadband, telecommunication and medical industries since the early 1990s. Cappello’s most recent research presentations to the Society of American Baseball Research (SABR) are featured on his Web site www.baseballengineer.com. He lives with his wife and two children in South Jersey.
The debate over the impact of steroids on baseball is over: A new statistical approach clearly reveals the enormous impact steroids have had on the record book—and identifies 22 suspicious players.
From LinkedIn to Twitter, it can seem impossible to know how to use all the social media services that the Internet offers, but if utilized in the right way, social media can be the platform for incredible success.

Social media is a crucial tool for success in business today. People are already talking about your business using social media, whether you're using it or not. By becoming part of the conversation, you can start connecting directly to your customers, as well as finding new ones, easily and inexpensively spreading the word about your products or services.

But social media marketing isn't like traditional marketing—and treating it that way only leads to frustration. Let Shama Hyder Kabani, president of Web marketing firm Marketing Zen and social media expert, teach you the "zen" of social media marketing: how to access all the benefits of social media marketing without the stress!

*The Zen of Social Media Marketing* outlines the most popular social media tools, from Facebook to Twitter to LinkedIn, and teaches you how to use them, step by step. She provides proven strategies for success from the businesses she works with every day, along with shortcuts and tips to help you make the most of your time and energy.

*The Zen of Social Media Marketing* is also the last social media guide you’ll ever need: with the physical book you also get access to the exclusive online edition, which includes regular updates and video extras to make sure you’re always on top of the latest in social media.

**SHAMA HYDER KABANI** is the founder of Marketing Zen, LLC, a full-service online marketing firm that serves clients around the world. Fast Company has dubbed her “an online marketing shaman and a millennial master of the universe.” She holds a Masters degree in organizational communication from the University of Texas at Austin, and she was named one of the 10 Most Influential and Powerful Women in Social Media by Immediate Influence Blog.
Every now and then a simple yet radical idea shakes the very foundations of knowledge. The startling discovery that the world was not flat challenged and ultimately changed the way people perceived themselves and their relationship with the world. For most humans of the 15th century, the notion of Earth as a ball of rock was nonsense. The whole of Western, natural philosophy is undergoing a change again, increasingly being forced upon us by the experimental findings of quantum theory, and at the same time, moving toward doubt and uncertainty in the physical explanations of the universe’s genesis and structure. **Biocentrism** completes this shift in worldview, turning the planet upside down again with the revolutionary view that life creates the universe instead of the other way around.

In this paradigm, life is not an accidental byproduct of the laws of physics. **Biocentrism** takes the reader on a seemingly improbable but ultimately inescapable journey through a foreign universe—our own—from the viewpoints of an acclaimed biologist and a leading astronomer. Switching perspective from physics to biology unlocks the cages in which Western science has unwittingly managed to confine itself. **Biocentrism** will shatter the reader’s ideas of life—time and space, and even death. At the same time it will release us from the dull worldview of life being merely the activity of an admixture of carbon and a few other elements; it suggests the exhilarating possibility that life is fundamentally immortal.

**MARKETING**

• Robert Lanza and Bob Berman are two well-known names among science journalists and followers

• The hardcover version of **Biocentrism** was abridged in Discover and on MSNBC.com. Articles featuring the book also ran on HuffingtonPost.com and Pajamas Media.
The Vision Revolution
How the Latest Research Overturns Everything We Thought We Knew About Human Vision
MARK CHANGIZI

The Vision Revolution reveals cutting-edge research into the field of human vision from leading evolutionary scientist and neurobiologist Mark Changizi

Primates evolved binocular vision (both eyes facing forward) so that they can see in three dimensions, critical as they jumped from branch to branch. Higher primates developed color vision to better hunt out ripe fruit. Optical illusions succeed because they exploit the limitations of our visual processing. Wrong!

All of these beliefs are false, as groundbreaking research by evolutionary scientist and neurobiologist Mark Changizi now reveals. Changizi’s research centers on the “why” of human vision. Why do we have binocular vision? Why do we see in color the way we do? Why do optical illusions work? And why are we able to absorb information by reading a very new invention from an evolutionary perspective more readily than by hearing, which we’ve evolved to do over hundreds of thousands of years?

The Vision Revolution answers these questions and proves, with the detailed results of Changizi’s fieldwork, that the answers are very different than traditionally believed. A radically new perspective of human vision is now emerging. The Vision Revolution is upon us.

MARK CHANGIZI is an assistant professor of cognitive science at Rensselaer Polytechnic Institute. Dr. Changizi’s research has been written up in more than 75 media outlets worldwide including Time Magazine, Newsweek, USA Today, Discover, New Scientist, Financial Times, Daily Telegraph, Scientific American, The Times of London, Natural History Magazine, Reuters, ABC News, MSNBC and FOX News.
The 4 Habits of Healthy Families
Everything Your Family Needs to Get Healthy and Stay Healthy for Life

Featuring the Yes, No, Maybe So Food Choice Plan

AMY HENDEL

Author Amy Hendel shows readers how to make healthy new habits a part of everyday life, with sensible time-saving and budget-saving tips that can work for any family.

A book has finally been written to address weight management and health in the family. The 4 Habits of Healthy Families will teach families of all shapes and sizes how to create meals that are healthy and enjoyable. Amy Hendel, lifestyle therapist and health expert, guides families through daily planning, preparation and proportion of food. But, what’s more, Amy has fought obesity herself and is also a busy, working mother. She brings personal credibility and expertise to an easy-to-follow and practical health guide.

The benefits of improving your family’s health don’t stop at a healthier, better-feeling family. As you practice Amy’s easy program, you’ll find your family gathering around the dining-room table more often and seeking out healthy activities to enjoy together. Health will become the platform for a stronger and more closely knit family.

In addition to invaluable sidebars and tips, The 4 Habits of Healthy Families is filled with easy and delicious recipes, sample grocery store lists and a plethora of other suggestions to minimize time and maximize output in the kitchen.

The 4 Habits of Healthy Families offers a generous amount of support from an author who has fought—and beat—obesity in her own family. Amy Hendel is showing the joys and advantages of making health a family affair.

Get Your Business to Work!
7 Steps to Earning More, Working Less and Living the Life You Want

GEORGE HEDLEY

For all small-business owners, here’s a comprehensive blueprint to getting the life you want and the money to fund it.

When entrepreneurs start their companies, they’re excited to be on their own, land some customers and start making money. But as they grow, things get harder and, pretty soon, they are working harder and harder to keep the business afloat. They’ve been in business for several years but don’t have much to show for their efforts except sour attitudes, tired bodies, more wrinkles, lots of aches and pains, less hair and more stress. In fact, they’ve lost their passion and have forgotten the real reason they went into business years ago—to get paid for doing something they love to do.

Get Your Business to Work! offers the small-business owner a complete step-by-step guide to realizing profits, wealth and freedom. Written in a fun, visually exciting style, Get Your Business to Work! provides an easy-to-follow approach to systematizing and managing your business, with a focus on building your business into a vehicle for achieving your personal goals and building personal wealth. Stop working for your business, and let your business work for you!

GEORGE HEDLEY owns a $50 million construction and real estate development business as well as HARDHAT Presentations. Over the last five years, as a much requested popular professional speaker, George speaks 50 times per year to business audiences, conventions, associations and at company meetings. As many as 25,000 people see him present keynote speeches or seminars every year. George is based in Costa Mesa, Calif.
Why Loyalty Matters

The Groundbreaking Approach to Rediscovering Happiness, Meaning and Lasting Fulfillment in Your Life and Work

TIMOTHY KEININGHAM & LERZAN AKSOY WITH LUKE WILLIAMS

Based on extensive consumer surveys, Why Loyalty Matters demonstrates the breakdown of loyalty in our society, why it matters and what we can do about it, with the support of Ipsos, one of the world’s largest research companies and exclusive access to the LoyaltyAdvisor Web site.

Why Loyalty Matters provides compelling insight into how our loyalties, large and small, lay the foundation for our happiness and determine the kind of world we live in. Businesses across the country are suffering in today’s rocky economic times, and Why Loyalty Matters offers a convincing call for revolutionary change in the way we view and conduct our professional and personal lives. Renowned loyalty experts Timothy Keiningham and Lerzan Aksoy combine their own groundbreaking research with the leading thinking in philosophy, sociology, psychology, economics and management to provide breakthrough insight into the role that loyalty can and should play in our lives, at home and at work. The book presents evidence that loyalty is the prescription to the emptiness we feel in our lives, and to the increasing fragmentation we see in our communities through countless failing businesses.

Why Loyalty Matters offers a comprehensive guide to understanding what loyalty is, what it isn’t and how to unlock its power. Examining the role of loyalty in all aspects of our lives, Why Loyalty Matters offers a new and potentially life-changing way to understand our innate need for loyalty, as well as our ability to sustain loyal relationships throughout our lives. Why Loyalty Matters is both a powerful contribution to the science of loyalty research and a gift to all those who lament the decline in loyalty we witness all around us and seek to build the foundation for lasting fulfillment.

The Amazing Monarch

The Secret Wintering Grounds of an Endangered Butterfly

WINDLE TURLEY

Each September, millions of monarch butterflies, each weighing only a few grams, begin a journey of up to 2,800 miles from Canada and the Northeast to Transverse Neovolcanic Mountains, 150 miles southwest of Mexico City. The monarch is one of the few insects capable of such a journey (it is capable of trans-Atlantic crossings as well). Amazingly, this migration only takes place every three to five generations, but, somehow, by the last week of October, they arrive at the same small groups of oyamel fir trees their ancestors populated the year before. The handful of roosting sites, located at about 10,000 feet altitude, may contain 20 to 30 million monarchs in a single site only a few acres in size.

In early March, the monarchs mate and start their journey back north. Along the way, the female lays her eggs on milkweed plants and dies. The eggs become larvae, or caterpillars, then pupas and transform into butterflies. These then mate and continue their journey, find another milkweed, lay eggs and die. They will have lived only 60 to 90 days. The process continues for 2,500 miles and three to five generations until they find their summer home in the North.

The wintering grounds of the monarch were unknown to outsiders until 1975. The Amazing Monarch captures a set of truly stunning pictures of the monarch, considered by many to be nature’s most beautiful butterfly, in its rarely seen winter home.

For the past 25 years, WINDLE TURLEY has traveled the world photographing wildlife, large and small. Orangutans in Borneo and gorillas in Africa, along with polar bears and butterflies, are only a few of the many subjects he has tracked. Exhibits of his works have been praised for their unique composition and character. When Turley is not taking pictures of wildlife, he is a practicing trial attorney in Dallas.
Awe-inspiring photographs from the rarely seen hidden wintering grounds of the monarch butterfly
The Five-Year Party
How Colleges Have Given Up on Educating Your Child and What You Can Do About It
CRAIG BRANDON

Former education reporter and college instructor takes readers inside today’s colleges to reveal the widespread erosion of education—and how parents can protect their children.

Colleges look much the same as they did five or 10 years ago, but a lot has changed behind the scenes. While some mixture of study and play has always been part of college life, an increasing number of schools have completely abandoned the idea that students need to learn or demonstrate that they’ve learned. Financial pressures have made colleges increasingly reluctant to flunk anyone out, regardless of performance, although the average length of time to get a degree is now five years, and for many students it’s six or more. Student evaluations of professors—often linked to promotion and tenure decisions—have made professors realize that applying tough standards, or any standards, only hurts their own career progress.

The worst of these schools are the “subprime” colleges, where performance standards and accountability have been completely abandoned. Students enjoy a five-year party with minimal responsibilities while their parents pay the bills. And after graduation, former students are frequently unable to find work in their chosen fields, thanks to their school’s reputation with employers, and unable to afford the payments on sizeable student loans.

The subprime colleges, which “teach” a significant percentage of college students, are only the tip of the iceberg. All colleges, even the most elite, have moved in this direction. If you are a parent sending your child to college, The Five-Year Party will give you critical information you need about what is really happening at your child’s college, and what you can do to ensure help your child gets a real education.

CRAIG BRANDON is the author of five books and a former education reporter and college writing teacher. His writing has won awards sponsored by the Charles Stewart Mott Foundation, the National School Boards Association, the Associated Press and first prize in investigative reporting from the Education Writers Association. He lectures frequently on topics connected with his books and has appeared on the History Channel, PBS and “Unsolved Mysteries.”
Legendary Ironman Mark Allen and world-renowned shaman Brant Secunda show you how to become truly fit from the inside out and take your life to the next level.

Let’s face it: fitness goes far beyond how long it takes to walk or run a mile. When you’re stressed out, emotionally drained, overworked, overweight and ungrateful of your physical body, you can’t get much of anything accomplished—at work, at home, on the race track, wherever and in whatever capacity. Put simply, when you’re spiritually unfit, life is a greater challenge. That mythical “balance” you’ve always dreamed of achieving is just that—a myth. But not anymore.

Mark Allen was one of the top triathletes in the world but struggled to get past the barriers that were preventing him from winning the grueling Ironman World Championship triathlon in Kona, Hawaii.

Then he began studying with Brant Secunda, healer and teacher in the Huichol Indian tradition of Mexico. Brant is the only Westerner to have completed a 12-year apprenticeship with Don José Matsuwa, the revered Huichol Indian shaman. Brant taught Mark the spiritual and healing exercises that allowed him to integrate his physical and psychological fitness, which led to Mark’s unprecedented success.

Mark went on to win a never-before-achieved six Ironman triathlons in a row and was called the “World’s Fittest Man” by Outside magazine.

Now, Brant and Mark have integrated their wisdom into one book, providing practical tools you can adapt to your lifestyle and achieve results you never thought possible.
Even today, as trendy diets and a weight-loss frenzy sweep the nation, two-thirds of adults are still obese and children are being diagnosed with Type 2 diabetes, typically an “adult” disease, at an alarming rate. If we’re obsessed with being thin more so than ever before, why are Americans stricken with heart disease as much as we were 30 years ago?

In *The China Study*, T. Colin Campbell, PhD, details the connection between nutrition and heart disease, diabetes and cancer. The report also examines the source of nutritional confusion produced by powerful lobbies, government entities and opportunistic scientists. The New York Times has recognized the study as the “Grand Prix of epidemiology” and the “most comprehensive large study ever undertaken of the relationship between diet and the risk of developing disease.”

*The China Study* is not a diet book. Dr. Campbell cuts through the haze of misinformation and delivers an insightful message to anyone living with cancer, diabetes, heart disease, obesity and those concerned with the effects of aging.

For more than 40 years, **DR. T. COLIN CAMPBELL** has been at the forefront of nutrition research. His legacy, the China Study, is the most comprehensive study of health and nutrition ever conducted. Dr. Campbell is Jacob Gould Schurman Professor Emeritus of Nutritional Biochemistry at Cornell University. He has received more than 70 grant-years of peer-reviewed research funding and authored more than 300 research papers. The China Study was the culmination of a 20-year partnership of Cornell University, Oxford University and the Chinese Academy of Preventive Medicine.
A 1999 graduate of Cornell University, THOMAS CAMPBELL is a writer, actor and three-time marathon runner. Born and raised in Ithaca, N.Y., he has appeared on stage in London, Chicago and most of the states east of the Mississippi River.

The Accidental Millionaire
How to Succeed in Life Without Really Trying
GARY FONG

A memoir of a would-be slacker who really, really didn't want to become a doctor, so he became
an entrepreneur, a contrarian and, along the way, a millionaire. Fong stopped trying in life and
started succeeding. At turns hilarious, insightful and instructive, The Accidental Millionaire is
Horatio Alger—meets—David Sedaris.
